Dear Ms. Marshall:

Amendment to Institutional License
25-1173-02
Addition: Daniel H. Mathers, M.D.

The purpose of this letter is for the staff of the Nuclear Regulatory Commission to review the credentials of Daniel H. Mathers, M.D., based upon the additional 120 hours of clinical experience in a licensed facility (see attached) and consideration of the time spent in previous clinical experiences at Deaconess Hospital, Spokane, Washington. Previous evidence regarding Dr. Mathers' credentials was filed with the Nuclear Regulatory Commission on 1/28/82.

If in your judgment Dr. Mathers has appropriate clinical credentials, we would then be interested in adding his name to our institutional license.

If you have any questions concerning the above, please do not hesitate to contact me or my assistant, Richard Moore, at 406-782-8361.

Sincerely yours,

Sister Mary Serena Sheehy
