Pharmaco Nuclear, Inc.
ATTN: William C. McHugh, Ph.D.
100 North Euclid Avenue
Suite 900
St. Louis, MO 63108

Gentlemen:

This is in reference to your request, dated April 10, 1981, to distribute used Tc-99m generators to Group Medical Licensees. In order to continue our review, we need the following additional information:

1. Confirmation that you will not alter the generators in any way other than to open them and to use them in accordance with the manufacturer's instructions.
2. Submit copies of all labels affixed to the generator by the nuclear pharmacy. These labels should be sufficient to ensure compliance with Sections 32.73(a)(4) and (5)(ii) of 10 CFR Part 32.
3. Confirmation that you will include with each transferred generator a copy of the leaflet, brochure or other document supplied by the manufacturer that includes procedures to be followed and equipment and shielding to be used in eluting the generator.

We will be pleased to amend License No. 24-19360-01MD to authorize the nuclear pharmacy to distribute used Mo-99/Tc-99m generators upon receipt of the above requested information in duplicate. You should be sure to reference Control No. 07466 in your response.

Sincerely,

8508130097 850703
