License #48-05395-01  
Vollrath Company  
Radiography License Renewal

Dear Mr. Mallet:

As expressed in our letter of July 17, 1984, (copy enclosed), due to the organizational change of A.I.I., and the uncertain future of radiography supplies being encountered, we are requesting your approval to deal with Gamma Industries, Inc. Mr. Pat Patterson has been working with us on this change and has been very cooperative and helpful.

The new source model numbers and source changer information is given in #4 and #5 on the attached form. The balance of the information is the same as originally submitted on April 17, 1984. This change to Gamma Industries as our source supplier and source leak testing services will be incorporated into our radiography program after your review and approval to proceed is given.

Thank you for your cooperation in this matter.

Sincerely,

*Gordon Neumann*
