Texas Utilities Generating Company
ATTN: Mr. W. G. Council
Executive Vice President
400 North Olive Street, Lock Box 81
Dallas, Texas 75201

Gentlemen:

This refers to the inspection conducted by Mr. T. F. Westerman and other members of the Region IV Comanche Peak Group during the period June 22-August 31, 1985, of activities authorized by NRC Construction Permits CPPR-126 and CPPR-127 for the Comanche Peak Steam Electric Station (CPSES), Units 1 and 2, and to the discussion of our findings with Messrs. R. E. Camp and J. C. Kuykendall, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operations, construction, and Comanche Peak Response Team activities. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

During this inspection, it was found that one of your activities was in violation of NRC requirements. Consequently, you are required to respond to this violation, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

During this inspection, it was found that certain of your activities appeared to deviate from commitments made to the NRC. These items and references to the commitments are identified in the enclosed Notice of Deviation. You are requested to respond to these deviations in writing. Your response should be based on the specifics contained in the Notice of Deviation enclosed with this letter. As part of your response to Item A in the Notice of Deviation, please identify all members of the Comanche Peak Response Team (CPRT) and Senior Review Team with previous CPSES involvement, along with the documented evaluation which sets forth the basis for acceptance of their objectivity as defined in Section VII of the CPRT Program Plan.

Two unresolved items are identified in paragraphs 3 and 5.h of Appendix E of the enclosed inspection report.

We have also examined actions you have taken with regard to previously identified operations inspection findings. The status of these items is identified in paragraph 2 of Appendix C of the enclosed inspection report.

The responses directed by this letter and the accompanying Notices are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By:
