Mr. Edson G. Case, Director
Division of Reactor Standards
U. S. Atomic Energy Commission
Washington, D. C. 20545

Contract No: AT(49-5)-3011
Blume Project No: 2085516
Subject: Maine Yankee Atomic Power Station
Maine Yankee Atomic Power Company
Docket No. 50-309

Dear Mr. Case:

In accordance with your request, we have performed a general review of the FSAR, Volumes 1 and 2, and Amendment Nos. 14, and 17 to 25 for the Maine Yankee Atomic Power Station. Our review also included a) discussions with DRS and DRL staff during meetings on January 21, 1971 and May 19, 1971, b) data gained during a site visit on May 18, 1971, and c) discussions with DRS and DRL staff, and the applicant during a conference call on June 18, 1971.

We are enclosing herewith eight copies of our report, "Review of the Seismic Analysis and Design for the Maine Yankee Atomic Power Station." Our review has been primarily of the engineering factors pertinent to the seismic analysis and design of Class I items, and their foundations.

Very truly yours,

JOHN A. BLUME & ASSOCIATES, ENGINEERS
