799 Roosevelt Rd.
Glen Ellyn, IL 60137

RE: Vollrath Company
License Renewal
#48-05395-01

Dear Mr. Mallett:

Enclosed you will find the following information pursuant to our gamma radiography license renewal:

1. 2 copies - Form NRC-313R application form
2. 2 copies - Addendum to Form NRC-313R
3. 2 copies - Administrative Instructions to Radiography Personnel
4. 2 copies - Operating and Emergency Instructions to Radiographic Personnel
5. - One (1) check #00058583 for \$150.00 for license renewal fee.

Items #3 and #4 above have recently been updated to reflect the latest organizational structure and related responsibilities of each person in the program. As seen from the organizational structure, Mr. D. Lawrence is our full time radiographer, and all others serve in administrative and back-up duties in the program.

Fortunately, we have had an accident free 23 years of operation in our gamma facility, and everyone in our program will continue to strive to extend this record. I trust you will find the enclosed information is complete and meets with your approval. When approved, this license renewal will constitute our authorized Amendment #28.

Sincerely,

Gordon Neumann
