Thank you for the rapid handling of our request for an amendment to our license for radioactive materials.

In the letter that accompanied the amendment confirmation it was clear that you were under the mistaken impression that the unit (a GAMMACELL-220 of the Atomic Energy of Canada Limited.) was in operation at our Morristown location. This is not so. The site of our new laboratories was supposed to be at Morristown but due to circumstances beyond my control we shall be relocating to the Navesink location of the company instead. Due to this uncertainty about our location the GAMMACELL unit was not delivered to our laboratories and still remains under the control of Atomic Energy of Canada Limited in Canada. I intend to wait until the facility is totally ready in the Navesink location before having the unit delivered. This is anticipated to be in the 1st or 2nd quarter of 1986.

I believed that your office was aware of this situation after a telephone inquiry and letter from Dr. J. Piccone of your office. Please find a copy of the letter enclosed.

Research

The intention was to inform your office when the facility at the Navesink location was ready to receive the GAMMACELL unit, prior to giving the company the go-ahead to send the unit from Canada.

Any questions that you may have may be directed to me at (201 ) 582-7161 or at the address below. A message may be left with the division secretary at (201) 582-6080.

Sincerely,

TREVOR N. BOWMER

Gentlemen:

Subject: Inquiry No. 85-01

This refers to a telephone inquiry by Dr. J. Piccone of this office with yourself on April 23, 1985. This inquiry concerned activities authorized by License No. 29-23373-01, as they relate to the initiation of activities involving licensed materials and the anticipated workload of your program.

From this discussion, it is our understanding that you have never used licensed material under authorization of this license and do not intend to use material in the near future. We further understand that you will notify this office by telephone or in writing prior to using licensed material.

If our understandings are incorrect, please inform us in writing.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room. No reply to this letter is required; however, should you have any questions concerning this inquiry, we will be pleased to discuss them with you.

Your cooperation with us is appreciated.

Sincerely,

John D. Kinneman, Chief  
Nuclear Materials Safety Section A  
Division of Radiation Safety and  
Safeguards
