Docket No. 50-483

Union Electric Company  
ATTN: Mr. Donald F. Schnell  
Vice President - Nuclear  
Post Office Box 149 - Mail Code 400  
St. Louis, MO 63166

Gentlemen:

This refers to the routine safety inspection conducted by Mr. Bruce K. Little of this office on March 10 through May 27, 1985 of activities at Callaway Plant, Unit 1, authorized by NRC Operating License No. NPF-30 and to the discussion of our findings with Mr. S. E. Miltenberger and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During the inspection, certain of your activities appeared to be in violation of regulatory requirements, as described in the enclosed Appendix. The inspection showed that the violation was identified by you, was given prompt high level attention and that action had been taken to correct the violation and prevent recurrence (Refer to Paragraph 5 of attached inspection report). Consequently, no reply to the Notice of Violation is required and we have no further questions regarding this matter at this time.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosure will be placed in the NRC's Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

N. J. Chrissotimos, Chief  
Projects Branch 2
