RE: An Independent Audit

Number of pages including cover sheet: 3

Attached is a resume for Alfred W. Grella. Respectfully, we request your authorization to contract with Mr. Grella to perform an independent audit of NDC's DOT activities.

Please let me know if you have any questions.

Regards,

Dan Fishman

ABOUT THE INSTRUCTOR

ALFRED W. GRELLA
PRESIDENT, GRELLA CONSULTING INC.
NUCLEAR & HAZARDOUS MATERIALS
TRANSPORTATION CONSULTING
HC-73, BOX 728, LAKE-OF-THE-WOODS
LOCUST GROVE, VA. 22508 gwg/000516
(540-972-2538)-Fax or Phone, E-MAIL algrell@man.com

Al Grella is an independent nuclear and hazardous materials transportation consultant. In August 1990, he retired from the USNRC and U.S. Government service. He is well qualified as an instructor and expert in the regulations relating to nuclear and hazardous materials transportation and disposal. His career spans 40 years as a professional in health physics, health protection, transportation, inspection and enforcement, training, and related regulatory activities. It includes 3 years as a compliance inspector with the former AEC Region I, Division of Compliance and 11 years as the nuclear regulatory specialist and Competent National Authority with the US DOT's Office of Hazardous Materials Transportation. From 1979 until 1990, he was the Senior Transportation Specialist of the U.S. Nuclear Regulatory Commission. In that position, he was responsible for the monitoring and development of the NRC's program for the inspection of transportation and 10 CFR Part 61 activities of its licensees and related training of NRC inspectors. Between 1982-1990, he conducted over 20 short courses for NRC and State Regulatory personnel, and in the last 25 years has delivered several hundred invited lectures on transportation of nuclear materials.

As an independent consultant and President of Grella Consulting Inc. since 1990, Al has served numerous clients, including Oak Ridge National Laboratory, Electric Power Research Institute, Edison electric Institute, Scientific Ecology Group, Conference of Radiation Control Program Directors, Westinghouse Energy Systems, Chem-Nuclear Systems, International Energy Consultants, Inc., Roy F. Weston, Inc., Nuclear Fuel Services, Inc. US Enrichment Corp. Short courses have also been conducted at many nuclear power stations, as well as five other short courses for Woodson Associates, Inc. and Technical Management Services, Inc. Additionally, invited lectures are given four times each year at the Harvard University, School of Public Health.

Mr. Grella has a Bachelor's degree in Chemistry from the University of Connecticut and in 1979 also completed the one year management program at the National Defense University, Industrial College of the Armed Forces. He has authored over 30 published papers. He is a Certified Health Physicist, Certified Safety Professional, and a Fellow of the Health Physics Society. He is also a member of the American Nuclear Society and the Baltimore-Washington and Virginia Chapters of the Health Physics Society and the Management Committee of the ANSI N-14 Committee on Standards For Transportation of Radioactive Materials.

In February, 1996, Al Grella was the recipient of the 1996 M. Sackl (Sarge) Ozker Award. This award is bestowed annually by the ASME Radwaste Systems Committee to a person for distinguished service and eminent achievement in the field of radioactive waste management.

Since the publication of the 1995 DOT/NRC transportation regulation revisions, Mr. Grella has conducted nine 2-day short courses on-site at nuclear facilities providing training on the recent amendments. He also conducted one-day short course at Rutgers University in June and November, 1996 and a one day AAHP short course on Sat. July 20 and a 2-hour Professional Enrichment Short Course on July 21 1996 at the 41st Annual Meeting of the Health Physics Society in Seattle. On July 23, 1996, he also presented a paper on the recent DOT/NRC amendments at the Annual LLW Seminar of the Electric Power Research Institute in New Orleans, LA. A one day course was presented in September, 1996 at Smithkline Beecham Co. in PA. In December, he served as a consultant to the IAEA in Vienna, Austria and participated in beginning the development of a revised training manual used by the IAEA in its interregional training courses on nuclear transportation.
