Dear Mr. McGovern:

Re: Order on Consent  
Case #D200059005

This responds to the December 6, 1996 telephoned request from Mr. Marlin Maduras of Cintichem regarding the reporting requirements in the above referenced Order on Consent. Mr. Maduras explained to Barbara Youngberg of this Bureau that Cintichem will no longer perform Sr-90 analysis on site, but will send groundwater monitoring samples to Teledyne for analysis. The results will not be available to Cintichem in time to meet the reporting deadlines in the Order. Barbara Youngberg agreed to an extension of the deadlines for the weekly and monthly reports.

Enclosed is an amendment to the Order on Consent authorizing these changes. If you have any questions, please call Barbara Youngberg.

Sincerely,

Paul J. Merges, Ph.D., Chief  
Bureau of Pesticides & Radiation  
Division of Solid & Hazardous  
Materials
