MAR 24 1988

Dear Mr. Katzman:

This concerns your August 5, 1987 application requesting a radiation safety evaluation and registration of the model WE2001 irradiator. Based on the information submitted by this application and letters, as specifically referenced in the enclosed Certificate of Registration No. NR-531-D-101-S, we have concluded that the model WE2001 irradiator design is acceptable for specific licensing purposes in accordance with conditions specified in this certificate.

You are reminded that this Certificate of Registration does not authorize possession and distribution of the device. These activities are contingent upon the receipt of a specific materials license issued by NRC or an Agreement State.

You should review this Certificate for correctness and advise the undersigned of any errors. If you have any questions, please call me at (301) 492-0613.

Sincerely,

/S/

Steven Baggett
