Attention: Dr. Eugene V. Kleber

Gentlemen:

This refers to your letter of November 14, 1960, requesting renewal of your license C-4713 which expired March 31, 1959.

Since the issuance of your original license the Commission has required the following information with respect to applications for receipt of source material for processing.

1. A detailed description of your use of thorium residues.
2. The procedures you intend to employ in safeguarding employees against dust and contamination exposure through the escape of radioactive materials in the processing of such materials.
3. A general description of the types of instruments you have available to perform necessary health and safety surveys and the surveys that will be conducted.
4. If waste products are anticipated, we require the volume and concentration of radioactive materials and the method by which you intend to dispose of this waste.

Upon receipt of the above information, we shall further consider your request for an ARC license.

Very truly yours,

AIR MAIL
