Subject: Source material license for Isotopes Specialties

Dean,

They had C-03544 and C-05352 at 170 West Providencia. I don't have a listing for the material or amounts. I'll fax the complete list of license numbers to the office. Nuclear Corporation of America appears to have been one of the names they operated under. I'll search on that, U.S. Nuclear and ICN to make sure we get the complete list.
