P.O. Box 7246  
Louisville, KY 40207

Dear Mr. Martinez:

In order to update our environmental monitoring files on the Sheffield LLWDF, I am requesting the following information from U.S. Ecology, Inc.:

- 1) Monthly and quarterly results of environmental monitoring by the company for trench sumps and letter series wells on or adjacent to the LLW site; results should include any analyses for organic constituents at on-site well locations.
- 2) Monthly and quarterly results of environmental monitoring by the company for the chemical waste disposal facility licensed by IEPA.
- 3) Any results of analyses of samples from wells adjacent to the unlicensed chemical disposal facility north of the LLWDF.

If you have any questions about this request, don't hesitate to call me.

Thank you for your cooperation in this matter.
