Re: Docket No. 030-21253
Control No. 103763

Dear Sir:

In response to your letter of July 25, 1985 (copy enclosed) I can offer you the following information on why we have not provided the follow up information requested by telephone conversation between Mr. Miller of your staff and Noel Schooley, my vice president and designated safety officer.

On July 9, 1985, Mr. Schooley died suddenly and unexpectedly. Until I received your letter I was unaware of the incomplete status of our application. Since then I have reviewed our application with Reuben Brady, our newly appointed Safety Officer and have enclosed with this letter a revised Application for Material License and a revised Radiation Safety Plan reflecting the concerns of your office and our personnel changes.

Please call me if this application is still incomplete or in error. I apologized for us being unresponsive to your concerns with the original application, but considering the circumstances, I am sure your will be understanding.

Sincerely,

Kenneth H. Plummer, Jr.
