This to advise you of the issuance of Amendment No. 3 to License No. 4-580-6 held by Isotopes Specialties Co., Division of Nuclear Corporation of America, Inc., 170 West Providencia, Burbank, California, authorizing the transfer of radioactive waste to AEC designated land burial sites for disposal.

Pursuant to my memorandum dated July 12, 1960 regarding the licensing of commercial waste disposal organizations utilizing land burial, notice of this action is not being published in the Federal Register since this modification of the license does not represent a substantial change in the factors regarding radiation protection considered in the issuance of the existing license.

Mr. Alexander Grendon, Coordinator of Atomic Energy Development and Radiation Protection and appropriate officials of the State of California are being notified of this licensing action.
