ATTN: John E. Glen, Ph.D., Chief
Nuclear Materials Section B
Division of Engineering and
Technical Programs

Dear Dr. Glen:

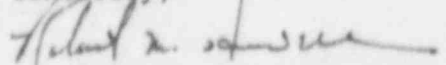

Enclosed is a total resubmission of our application to renew License No. 18-02774-01. This document replies to your deficiency letter of 4 October 1984, control number 02310.

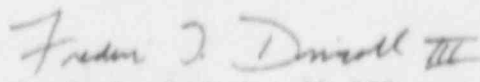

The original renewal application was submitted 14 April 1984, with the appropriate fee. Glenda Jackson, License Fee Management Branch, has informed us that the original fee will also cover this resubmittal.

Mr. Thomas Thompson has been advised that we will be forwarding evidence that all State and local jurisdictions have been notified of our plans to incinerate radioactive waste and have no objections, under separate cover.

Please contact Frederic J. Driscoll at (207) 288-3371 Ext 265 if there are further questions. Thank you for your prompt attention to this renewal request.

Sincerely,

Robert M. Howell, P.E./C.P.E.
Director of Engineering,
Facilities and Maintenance
