Re: No. 85-82  
N.R.C. Considering Possible  
Financial Responsibility  
Requirements for Some  
Licensees:

Gentlemen:

Your proposed financial program would be a disaster in the free business world for the industrial radiography industry. Over 50% of the industrial x-ray company in the U.S.A. have sales per year of less than 2 million dollars and are in trouble now because of government regulations and taxes.

I sincerely believe no one person on your staff has considered the financial impact on the small business person. I urge you to carefully explore the burden you would put on our type of business.

Very truly yours,

Don Earl Edwards  
President
