Office of International Programs

SUBJECT: EXCEPTION FROM 30-DAY WAITING PERIOD - TRANSNUCLEAR, INC.,  
LICENSE AMENDMENT NO. 01 TO XSNM01905

Transnuclear, Inc., requested an amendment to export license XSNM01905 to increase the quantity of material authorized for export by an additional 21 grams of uranium to West Germany for use in the FRJ-2 Research Reactor. The supplier of the material (DOE) advised Transnuclear that the cylinder was filled with 11.721 kilograms of uranium, an overage of 21 grams. The licensee requested that NRC waive the 30-day waiting period for this amendment in order to meet the urgent shipping schedule.

Due to the small quantity of uranium involved in the amendment, an exception from the full 30-day waiting period is granted.
