Re: Renewal of license No. 35-19254-01
Notice Date 12/03/84

Dear Sirs;

The City of Stillwater Engineering Department would like to renew the above referenced license to possess and operate the Troxler 3411-B Surface Moisture Density Gauge. Since many of our personnel have been hired since the permit was originally issued, I have submitted a complete, up-to-date renewal application. Our instrument and equipment remain the same as originally licensed. This is my first time to apply for this license; so if I have omitted any needed material, please let me know.

Sincerely,

Jed Banks,
Assistant City Engineer

JB/jd
