Gentlemen:

This refers to the inspection conducted by Messrs. L. E. Ellershaw and D. P. Tomlinson of this office during the period April 1-July 12, 1985, of activities authorized by NRC Construction Permit CPPR-145 for River Bend, Unit 1, and to the discussion of our findings with R. B. Stafford and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included structural steel connections and safety-related heating ventilation and air conditioning systems. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to this violation, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

Details of this inspection will be included in a report to be issued in the near future and identified as NRC Inspection Report 50-458/85-29.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,  
Original Signed By
