Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Denton:

River Bend Station - Unit 1  
Docket No. 50-458

---

This response provides the final status of Gulf States Utilities Company (GSU) justification for interim operation (JIO) for which environmental qualification has been completed. The environmental qualification of the following item (previously submitted under 10CFR50.49(i)) has been successfully completed.

- SRN No. 241242-1, Rev. 1; Rockbestos Cable

The attached table is a final update reflecting the qualification of this equipment. All of River Bend Station's outstanding JIO's have been successfully completed prior to November 30, 1985 as required under 10CFR50.49.

Sincerely,

J. E. Booker
