Docket No. : 030-03607  
License No.: 04-01100-01G  
Control No.: 70153

Nuclear Products Company  
2519 North Merced Avenue  
South El Monte, California 91733

Attention: Mr. Richard M. Evleth  
President

Gentlemen:

Enclosed is the NRC license renewal which you requested.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify us so that we can provide appropriate corrections and answers.

We cannot add the NRD P-001 foils to your license until:

1. The State of New York reviews the P-001 foil and issues a catalog sheet.
2. The State of California issues an amendment to your State of California License No. 0637-70 authorizing possession of the P-001 foils and authorizing their use in the manufacture of static eliminators.

You should submit the catalog sheet from the State of New York and your amended state license with a request to amend License No. 04-01100-01G. Refer to Mail Control No. 70153 when you submit your amendment request. Since this information is needed to complete the review of your initial request, no addition fee will be needed.

Any future correspondence relating to your license should specifically reference your license and docket numbers to expedite your inquiry.

bcc: Glenda Jackson, LFMB

Sincerely,
