Gentlemen:

This refers to the inspection conducted by Messrs. R. A. Caldwell and J. A. F. Kelly of this office during the period July 15-19, 1985, and by Mr. R. A. Caldwell July 29 - August 1, 1985, of activities authorized by NRC Construction Permit CPPR-145 for River Bend Station, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included management effectiveness, security organization, records and reports, lock and key control, access control-personnel, physical barriers-vital areas, detection aids-vital areas, communications, and follow-up on inspector identified items. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.
