

DOCKET NO. 27-7

JAN 30 1961

L&R:LB:WBC (4-380-6, 7, 8,
and C-5352)

Nuclear Corporation of America, Inc.
Isotopes Specialties Company Division
170 West Providencia
Burbank, California

Gentlemen:

We were advised by telegram dated January 3, 1961 from Mr. John Vaden, that Isotopes Specialties Company, Division of Nuclear Corporation of America, Inc., had been sold to U. S. Nuclear Corporation. Further, by letter dated January 4, 1961, U. S. Nuclear Corporation requested an amendment of its License No. 4-5241-1 to authorize the decontamination of the Nuclear Corporation of America, Inc., Isotopes Specialties Company Division Laboratory premises located at 170 West Providencia, Burbank, California.

From informal communications we understand that another division of your Corporation will continue to occupy these facilities for purposes not covered by A. E. C. licensing. Nuclear Corporation of America, Inc., Isotopes Specialties Company Division, as the legal licensee listed in License Nos. 4-380-6, 4-380-7, 4-380-8 and C-5352, is responsible for any licensed material in the form of radioactive contaminants fixed to real property at the 170 West Providencia facilities. Reference is made to our letter of December 23, 1959, regarding the levels of contamination which would be considered de minimis at your previous 703 Main Street, Burbank, California facility (copy enclosed). These de minimis criteria will also apply to the current situation. Upon completion of any necessary decontamination procedures you are requested to notify this office of the contamination levels which remain in the buildings.

A/123

27-7
JAN 30 1961

Nuclear Corporation of America, Inc. -2-

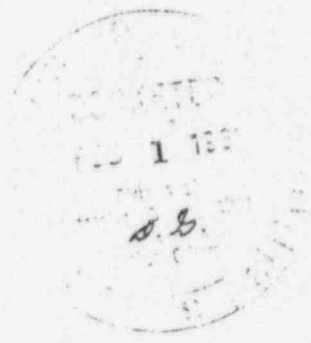

Subsequent to satisfactory decontamination of the facilities and disposal of all licensed material in compliance with the Commission's regulations, you may request termination of the referenced licenses.

Sincerely yours,

James R. Mason, Chief
Isotopes Branch
Division of Licensing
and Regulation

Enclosure:
As stated above
