Re: Nuclear Density Gauges

Dear Sir:

We are presently using Nuclear Density Meters in Raleigh and Greenbrier County, West Virginia. These gauges are being used to test density of embankment on three construction projects for the West Virginia Department of Transportation on the construction of I-64.

These gauges are licensed in our home State of Kentucky. (Copy of license enclosed) Please advise if we need to file any forms, reports, etc., while these gauges are being used in West Virginia. //

Sincerely,

Angela Howard
