Mr. John T. Collins
Regional Administrator
USNRC Division of Inspection
and Enforcement, Region IV
611 Ryan Plaza Dr., Suite 1000
Arlington, TX 76012

Dear Mr. Collins:

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION
DOCKET NOS. 50-445 AND 50-446
SUPPLEMENTAL RESPONSE TO IE BULLETIN 83-06
FILE NO. 10130

The purpose of this letter is to close out the CPSES response to IE Bulletin 83-06, "Nonconforming Materials Supplied by Tube-Line Corporation Facilities at Long Island City, New York; Houston, TX; and Carol Stream, Illinois". The initial CPSES response to IE Bulletin 83-06, TXX-4080, dated December 29, 1983, contained open items.

As stated in the initial response, six (erroneously reported as five in our first letter) vendors identified in the attachments to the bulletin have supplied equipment to CPSES. Reports were requested from each of these, but at that time they had not yet responded. These vendors are Bingham Williamette Co., Chicago Bridge & Iron, Crane Co., ITI Grinnell, Metal Bellows Corp., and Westinghouse Electric Corp.

Responses have now been received from all six vendors and all the letters state that no Tube-Line Corporation material was furnished to CPSES. This letter completes CPSES's actions concerning IE Bulletin 83-06.

Please call if you have any questions concerning this subject.

Sincerely,

Billy Clements
