NRC STAFF/FEMA'S MOTION FOR EXTENSION OF TIME  
TO FILE TESTIMONY AND POSTPONEMENT OF HEARING  
ON EDDLEMAN CONTENTION 57-C-3

I. INTRODUCTION

Pursuant to 10 C.F.R. § 2.711 of the Commission's regulations the Staff of the Nuclear Regulatory Commission (Staff), on behalf of the Federal Emergency Management Agency (FEMA), moves the Licensing Board for an order which would (1) extend the time for the filing of testimony on Eddleman Contention 57-C-3 until September 13, 1985, and (2) postpone the hearing on Contention 57-C-3 until October 1, 1985.

II. DISCUSSION

In order to respond to Eddleman Contention 57-C-3, FEMA is engaged in an analysis of the ability of the sirens installed at the Harris site to awaken people from sleep. FEMA determined that demographic data, information concerning the measured attenuation of siren sound

DS07

afforded by a typical house around the Harris site, and information concerning approximately six siren locations was required in order for FEMA to complete its analysis. Applicants have agreed to provide the data, some of which was not yet developed at the time the data was requested. Applicants have recently finalized the siren system design, and have stated that the measured attenuation values would be provided by August 16, 1985. It is the Staff's understanding that those values are the last pieces of information needed by FEMA. FEMA informed the Staff that it would be unable to distribute the data to the appropriate consultants, complete its analysis and prepare testimony by the filing date of September 3, 1985. For this reason the Staff, on behalf of FEMA, is requesting that all parties be permitted to file their testimony by September 13, 1985.

The Commission's regulations require that testimony be filed by the parties at least fifteen days prior to the commencement of the evidentiary hearing. 10 C.F.R. § 2.743(b). In order to comply with this section of the regulations, it would be necessary to postpone the hearing. Therefore, the Staff is requesting that the hearing on Eddleman Contention 57-C-3 commence on October 1, 1985 rather than on September 24, 1985. Staff Counsel has contacted Mr. Eddleman and Counsel for Applicants with respect to this request. Applicants have indicated that they have no objection to this motion. Mr. Eddleman has indicated that he wishes to respond to the motion separately.

III. CONCLUSION

For good cause shown, the Staff moves the Licensing board for an order extending the date for all parties to file their testimony on Eddleman Contention 57-C-3 until September 13, 1985, and to postpone the hearing on this contention until October 1, 1985.

Respectfully

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "J. E. Moore", written in a cursive style.
