RECEIVED

Dear Mr. Guinn:

Thank you for your letter of January 26, 1979 in regard to our request that License No. 20-15990-01 be changed to reflect our California address.

The current needs of Trio-Tech International cannot be met by working under a reciprocity provision and therefore in reply to your request (1), we are submitting the names of individuals who will be using licensed material and the qualifications of each individual named as a user. You will note that each individual user under 3. (c) has obtained the education specifically applicable to the use of Tracer-flo devices. Additionally, we operate under California licenses: #2222-59 and #2350-43 and these same employees are licensed by the State.

Thank you for your review of our application and we look forward to an early reply.

Very truly yours,

TRIO-TECH INTERNATIONAL
