Gentlemen:

SUBJECT: REPORT NOS. 50-325/85-23 AND 50-324/85-23

On July 8-12, 1985, NRC inspected activities authorized by NRC Operating License Nos. DPR-71 and DPR-62 for your Brunswick facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations of activities in progress. The inspectors also conducted independent measurements, utilizing Region II ultrasonic equipment at your site, to verify your capability for performing ultrasonic examinations and analyzing examination results.

Within the scope of the inspection, no violations or deviations were identified.

Your attention is invited to unresolved items identified in the inspection report. These matters will be pursued during future inspections.

Should you have any questions concerning this letter, please contact us.

Sincerely,

ISI

David M. Verrelli, Chief
Reactor Projects Branch 1
Division of Reactor Projects
