Docket No. 27-7

Isotopes Specialties Company  
Division of U. S. Nuclear Corporation  
801 North Lake Street  
Burtank, California

Attention: Mr. Allen Goldstein

Gentlemen:

Reference is made to your application dated January 13, 1961, requesting the transfer of Byproduct, Source and Special Nuclear Material License No. 4-580-6 from Isotopes Specialties Company, Division of Nuclear Corporation of America, Inc., to Isotopes Specialties Company, Division of U. S. Nuclear Corporation. Reference is also made to our letters dated March 7, 1961 and June 13, 1961, requesting certain essential statements and supporting information.

As of this date, we have received no reply to our letters. ~~Therefore, the application is hereby denied for lack of interest.~~

*out* Denial of the referenced application also constitutes final action in regard to the application for renewal of License No. 4-580-6 filed by Isotopes Specialties Company, Division of Nuclear Corporation of America, Inc., July 25, 1960, and thereby License No. 4-580-6 is terminated. We were advised by letter dated March 1, 1961, from Mr. Kenneth W. Newman, Nuclear Corporation of America, Inc., that all waste material received under License No. 4-580-6 had been disposed of.

Pursuant to the Commission's "Rules of Practice," Title 10, Code of Federal Regulations, Part 2, you may request a formal hearing in this matter by filing a written request with the Office of the Secretary, United States Atomic Energy Commission, Washington 25, D. C., within thirty (30) days after the issuance of this notice of denial.
