

OCT 25 1985

Docket Nos. 50-278

License No. DPR-56

Philadelphia Electric Company  
ATTN: Mr. S. L. Daltroff  
Vice President  
Electric Production  
2301 Market Street  
Philadelphia, Pennsylvania 19101

Gentlemen:

Subject: Inspection No. 50-278/85-36

A routine safety inspection of your radiation protection program during repairs to the core spray sparger "T" box and radioactive waste management program for your low-level radioactive waste storage facility was conducted by Mr. H. Bickhouse of this office on October 8-11, 1985. Our findings were discussed with Mr. R. Fleischmann at the conclusion of the inspection.

Areas of the radiation protection and radioactive waste programs examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel and measurements and observations made by the inspector.

Within the scope of this inspection, no violations were observed. However, an unresolved item relating to the safety review of your low-level radioactive waste storage facility was noted. In addition, several areas of apparent weakness in your radioactive waste management program related to the facility are discussed in the report and should be addressed in your management program.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:

*Ronald R. Bellamy* for  
Thomas T. Martin, Director  
Division of Radiation Safety  
and Safeguards
