Docket Nos. 50-266
and 50-301

Mr. C. W. Fay, Vice President
Nuclear Power Department
Wisconsin Electric Power Company
231 West Michigan Street, Room 308
Milwaukee, Wisconsin 53201

Dear Mr. Fay:

SUBJECT: GENERIC LETTER 83-28, ITEM 1.2 "POST TRIP REVIEW: DATA AND INFORMATION CAPABILITIES" FOR THE POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

The staff has completed a preliminary review to assess the completeness and adequacy of licensee responses to Generic Letter 83-28 Item 1.2. For the Point Beach Nuclear Plant, Units 1 and 2, your response was found to be incomplete in four of the areas evaluated.

The enclosed TER provides a technical evaluation representing the staff's initial judgment of the areas evaluated.

In order to preserve our present review schedule, we would appreciate your cooperation in obtaining additional information that will permit us to complete our review. It would appear that the needed information on your facility could be obtained by telephone conference within one week of your receipt of the TER. Your project manager will be working with you to arrange an acceptable time to conduct the necessary conference calls.

Enclosure 2 contains supporting information in preparation for the telecon. The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

(5)

Edward J. Butcher, Acting Chief
