AUG 02 1985

Duke Power Company
ATTN: Mr. H. B. Tucker, Vice President
Nuclear Production Department
422 South Church Street
Charlotte, NC 28242

Gentlemen:

SUBJECT: REPORT NOS. 50-369/85-22 AND 50-370/85-23

On June 10-14, 1985, NRC inspected activities authorized by NRC Operating License Nos. NPF-9 and NPF-17 for your McGuire facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

The NRC's concerns relative to the inspection findings were discussed by the Regional Administrator and yourself in an enforcement conference held at Region II on July 12, 1985.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosures will be placed in NRC's Public Document Room.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Roger D. Walker, Director
Division of Reactor Projects
