Gentlemen:

SUBJECT: NED-85-582/1817B: TRITIUM IN GROUNDWATER

We have reviewed your proposal to suspend submission of special quarterly update letters concerning groundwater tritium activity at Plant Hatch. Since your proposal changes only the submission of reports to the NRC and not the substance of the program, we find your proposal acceptable.

If there are any questions concerning this matter, please contact P. G. Stoddart at (404) 221-5621.

Sincerely,

Roger D. Walker, Director  
Division of Reactor Projects
