Gentlemen:

SUBJECT: OPERATOR AND SENIOR OPERATOR REQUALIFICATION EXAMINATIONS

This refers to our letter of July 2, 1985, which confirmed arrangements for the administration of requalification examinations at the Brunswick Steam Electric Plant. We stated in that letter that we would provide you with a list of licensed operators, along with several alternates, that were selected to be examined. Enclosed herewith is the list of selected examinees.

Fifteen individuals identified in the enclosure will be administered a requalification examination during the week of September 23, 1985. A random selection process was used in determining the identity of examinees for the examinations.

We have also selected five alternate examinees for the examinations. They are also identified in the enclosure. They will be examined in lieu of the selected candidates only when those individuals selected cannot be made available and adequate justification exists for granting the substitution. If you find this to be necessary, please notify us immediately by telephone.

If you have any questions concerning this matter, please contact Mr. John F. Munro at 404/221-5562.

Sincerely,

(Original signed by SWeise)

David M. Verrelli, Chief  
Reactor Projects Branch 1  
Division of Reactor Projects
