1 Narragansett Trail, RFD #1

Charlestown, RI 02813

Gentlemen:

Enclosed is a letter, dated October 16, 1985, from James Berger, ORAU, to me concerning Isotopic Uranium in UNC Soils. Mr. Berger concludes that a U-234/U-235 ratio of 30 or greater is appropriate for the UNC decommissioning effort. In accordance with the ORAU interim soil survey results and the discussions in our recent meeting, please provide us with specific actions and schedules for completion of the soil decontamination effort. Upon completion, we will perform appropriate confirmatory surveys.

Please contact me if you have any questions concerning our position.

Sincerely,

Original Signed By:

W. T. Crow

W. T. Crow, Acting Chief
