Mr. Leo Higgenbotham  
U.S. Nuclear Regulatory Commission  
7915 Eastern Avenue  
Silver Springs, MD 20910

Dear Mr. Higgenbotham:

Enclosed for your review are five (5) copies of the Durango draft RAP/SCD and two (2) copies of the supporting calculations. Also enclosed are two (2) copies each of the draft PSCR and Bodo Canyon DSCR. In order to maintain the Durango schedule, we would appreciate your draft review comments by close-of-business August 15, 1985. We are aware that the DOE/NRC Memorandum of Understanding allows 45-60 days for review, but your efforts in improving upon this allocated time frame would be appreciated. To expedite review we have also sent 10 copies of the RAP/SCD, 2 copies of the supporting calculations and 3 copies each of the PSCR and DSCR to NRC's Uranium Recovery Field Office in Golden, Colorado. To aid in your review the DOE/TAC staff is available to discuss the contents of the documents with you.

Your efforts in meeting the August 15, 1985, date will be appreciated. Should you have any questions, please contact John D'Antonio of my staff at (505) 846-1206.

Sincerely,

John G. Themelis, Project Manager  
Uranium Mill Tailings Project Office
