

## JOE B. GEORGE

COUNTY OF DALLAS :

BEFORE ME, the undersigned authority, a Notary Public in and for Dallas County, Texas, on this day personally appeared JOE B. GEORGE, who by me being duly sworn upon his oath deposes and says:

My name is Joe B. George. I am presently Vice President and Project General Manager of Engineering and Construction of the Comanche Peak Steam Electric Station Project for Texas Utilities Generating Company. My address is P. O. Box 1002, Glen Rose, Texas 76043 and I reside at 129 Comanche Vista, DeCordova Bend Estates, Granbury, Texas 76048. My telephone numbers are 817/897-4367 and 817/326-4154.

I am aware that Management Analysis Company ("MAC") reviewed the Quality Assurance Program of TUGCO at Comanche Peak in 1978. I may have been interviewed by MAC but I do not recall the details of such interview. While it is possible that I did, I do not recall ever receiving a copy of the report or reading same until a copy of the report was sent to the Atomic Safety and Licensing Board by Mr. Wooldridge in late May, 1985. It was my impression that the MAC review was for the benefit of the top management of TUGCO and I was not aware of any formal submittal being made or any response being required thereto. I may have attended a pre-audit meeting with representatives of MAC but I do not recall any of the details of such meeting. I do recall attending a meeting to discuss questions raised by MAC which related to the storing of stainless steel pipe.

Regarding CASE's discovery request in July of 1980, I was generally aware that the Intervenor had asked for a substantial amount of information. As stated

previously, I did not recall the existence of any report. I do not recall any discussions concerning the study performed by MAC in connection with the response to any discovery requests.

  
JOE B. GEORGE

SUBSCRIBED AND SWORN TO before me by the said JOE B. GEORGE on this, the 8TH day of AUGUST, 1985.

  
Notary Public in and for Dallas  
County, Texas

My Commission Expires:
