Frederick F. Feitel
General Manager, RSO
Canton Analytical Laboratory, Inc.
20 East Michigan Avenue
Ypsilanti, MI 48198

SUBJECT: NRC INSPECTION REPORT NO. 96-001

Dear Mr. Feitel:

This refers to the inspection conducted on September 19, 1996 at 20 East Michigan Avenue, and review of additional information provided by FAX through October 11, 1996. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with you on October 15, 1996.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letters dated September 25, and October 11, 1996, regarding the license status of detector cells used in a generally license gas chromatograph and disposition of detector cells covered by your license. The inspection determined that you no longer possess specifically licensed material.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practices," a copy of this letter, and copies of the above stated documents will be placed in the NRC Public Document Room (PDR).
