Dear Mr. Jones:

Re: License: 21-19295-02
Control: 399660

Enclosed is a copy of the General License for the HP Gas Chromatograph that you inspected on September 19, 1996. The detector cells mounted on the unit are **Model G1223A**.

As we discussed, our intention is to return the detector from the dormant Shimadzu instrument to the factory. This will eliminate all licensed material on site. When this is accomplished, CAL will terminate our NRC Materials License.

Sincerely yours,

Sincerely yours,

Fred Feitel
