**Negative Declaration Regarding  
Renewal of License No. SUB-526;  
Allied Corp. and Allied Chemical Co.,  
Metropolis, Illinois**

The U.S. Nuclear Regulatory Commission (the Commission) is considering the renewal of Materials License No. SUB-526 for the continued operation of the Allied Chemical Company UF<sub>6</sub> Conversion Plant at Metropolis, Illinois.

The Commission's Division of Fuel Cycle and Material Safety has prepared an Environmental Impact Appraisal for the proposed renewal of Materials License No. SUB-526. On the basis of this appraisal, the Commission has concluded that the environmental impact created by the proposed license renewal action would not be significant

and does not warrant the preparation of an Environmental Impact Statement. Accordingly, it has been determined that a Negative Declaration is appropriate. The Environmental Impact Appraisal (NUREG-1071) is available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. Copies of NUREG-1071 may be purchased by calling (301) 492-9530 or by writing Publication Service Section, Division of Technical Information and Document Control, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, or purchased from the National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161.
