Gentlemen:

As part of its responsibility under 10CFR Part 21, YARWAY has notified the U.S. Nuclear Regulatory Commission of the existence of a defect in Valve Stems bearing Heat Number "3876". Our research shows your facility as a recipient of these stems and you will find details on an attached sheet. In addition, a copy of YARWAY's letter to the NRC is also enclosed.

YARWAY will, upon your request, replace the entire Stem/Disc assembly at no cost to you. The replacement Stem Assembly will be supplied under a unique Part Number, 106626-10, and will include CMTR's for the valve disc and P.T. test record for the disc/key weld.

Any questions regarding the defect and report should be directed to Frank Peszka, Manager, Quality Systems at 215-825-2100, Ext. 206. Requests for replacement may be made to Paul Abbott, Ext. 277.

Sincerely,

YARWAY CORPORATION
