Gentlemen:

This refers to the inspection conducted by Messrs. W. D. Johnson and P. H. Harrell of this office during the period September 1-30, 1985, of activities authorized by NRC Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with J. M. Levine, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operational safety verification, maintenance, surveillance, design change control, followup on previously identified items, followup on a Unit 1 licensee event report, followup on an allegation regarding an emergency diesel generator Technical Specification surveillance, and nonlicensed staff training. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

During this inspection, it was found that certain of your activities appeared to deviate from commitments made to the NRC. These items and references to the commitments are identified in the enclosed Notice of Deviation. You are requested to respond to the deviation in writing. Your response should be based on the specifics contained in the Notice of Deviation enclosed with this letter.
