U. S. Nuclear Regulatory Commission  
Att: Document Control Desk  
Washington, DC 20555

Dear Sir:

Subject: Oyster Creek Nuclear Generating Station  
Docket No. 50-219  
Inservice Inspection Data Reports

In accordance with 10 CFR 50.55a(g) and ASME XI Section IWA-6220, 1986 edition with no addenda, GPU Nuclear is forwarding the requisite reports resulting from the Inservice Inspection activities conducted during our recently concluded 16R refueling outage.

The NIS-1 inspections which were performed have been separated into two groups. Table 1 contains a list of inspections performed for ASME Code credit or augmented inspection requirements. Table 2 contains a list of inspections where indications were recorded and resolved. In-vessel visual inspections have been summarized in the abstract section of the NIS-1 form.

The NIS-2 forms, documenting repairs or replacements, are also attached.

If any additional information or assistance is required, please contact Mr. John Rogers of my staff at 609.971.4893.

Michael B. Roche  
Vice President and Director  
Oyster Creek Nuclear Generating Station
