Gullford, Connecticut 06437

Gentlemen:

On October 3, 1991, we received your payment of \$1,228.42 for Invoice No. AM01173-91 assessed for the annual fee for License No. 06-17253-01. Our records show a balance due of \$307.77 through May 8, 1992 (\$208.46 principal, \$99.31 interest, penalty and administrative charges). The invoice was dated August 9, 1991, requiring payment by September 9, 1991.

Since payment was received after September 9, 1991, Commission regulations require that any payment received be first applied to any outstanding interest, administrative and penalty charges, and then to principal. Therefore, the balance due of \$307.77 represents principal plus additional interest, administrative and penalty charges due the Commission.

Please remit \$307.77 by May 8, 1992. Interest and other charges continue to accrue. Mail payment to:

U.S. Nuclear Regulatory Commission
