MEMORANDUM TO: John T. Larkins, Executive Director  
Advisory Committee on Reactor Safeguards

FROM: Richard L. Bangart, Director Original Signed By  
RICHARD L. BANGART  
Office of State Programs

SUBJECT: VIDEO CONFERENCE COVERING IMPEP REVIEW OF  
NEBRASKA RADIATION CONTROL PROGRAM

This office has received a request from the State of Nebraska (NE) regarding video conferencing capabilities at the NRC for the NE IMPEP Management Review Board (MRB) meeting to consider the Nebraska review report. As previously discussed, the meeting has been scheduled for January 22, 1997, from 1:00 to 3:00 pm. The cover letter and agenda for that meeting is attached. We will need accommodations for the five NRC MRB managers, five NRC staff IMPEP team members, one Agreement State Liaison to the MRB, and two NE representatives at the discussion table. Messrs. R. Scarano and C. Hackney, from Region IV, will also be in attendance. We understand that the Regions have video conferencing capability so that we have the option of including the Region IV manager via teleconference. Additionally, there will be four or five NE staff attending via teleconference from the State.

Our contact in NE is Brian Hearty, Program Manager, Radioactive Materials, Environmental Health Division, Nebraska Department of Health & Human Services, telephone number (402) 471-0504. Mr. Hearty stated that their Information Officer, Mike White, will call the ACRS staff directly, to provide technical specifications on satellite nodes, etc., for the video conference. It is our understanding that we will have a trial run prior to the meeting to test the system.

If you have any questions, please contact me at (301) 415-3340 or Patricia Larkins at (301) 415-2309.
