

April 4, 1972

J. B. Henderson, Chief, Reactor Construction Branch
Division of Compliance, Headquarters

GEORGIA POWER COMPANY (VOGTLE 1 AND 2), DOCKET NOS. PENDING.

Attached Report Nos. 72-1 covering the initial Compliance and introductory
quality assurance meetings with management are for information.

The application for the Vogtle facilities is understood to be scheduled
for submittal during April. The quality assurance audit will, therefore,
be scheduled after review of the application by Region IV.

Please note that this contractual arrangement will be slightly different
from the Hatch facilities. Detailed design will be done by Bechtel in the
Norwalk, California, engineering offices. The construction will be managed
by the applicant; however, no construction contracts have been let.
