License No. 4-850-3 was issued to Isotopes Specialties Company, 703 South Main Street, Burbank, California, on September 27, 1956, with an expiration date of September 30, 1957, in accordance with application dated August 30, 1956, and covers the collection, preparation, and disposal of byproduct and source material as waste. Possession limit-10 curies of any byproduct and source material waste. G. A. Blank issued license.

Amendment No. 1 issued on October 2, 1957, to extend the expiration date of the license to November 30, 1957, as per application dated September 19, 1957. J. W. H. issued #1.

Amendment No. 2 issued on November 15, 1957. Issued to extend expiration date to December 31, 1957, as per application dated October 9, 1957. R. L. H. issued #2.

Amendment No. 3 issued on December 23, 1957, to extend the expiration date to January 31, 1958, as per telephone call with Allen Goldstein and R. L. H. on December 16, 1957. Also to include new address at 170 West Providencia, Burbank, California. R. L. Hervin issued #3.

to 100C
Should be noted that additional amendments extend the expiration date of Isotopes Specialties license were not issued as per L. L. R's instructions as this would not be necessary as we received his present application for an increase in possession limit, etc. 30 days (December 2, 1957) prior to the expiration date of the last amendment. The telephone conversation was via the tie line from Oak Ridge to L. L. R. from J. W. H. and R. L. H. made on or about January 28, 1958. Hence, no further action was taken on this license as per instructions.

Instruction of L.L.R.
