RE: Amendment to CAN's and NIR's 10 CFR 2.206 petition on NU's  
mismanagement of its Connecticut reactors and the failure of the  
NRC staff to enforce safety regulations for the past decade

Dear Mr. MacDonald,

On behalf of my clients, Citizens Awareness Network and Nuclear Information and Resource Service, the enclosed amendment to their 10 CFR 2.206 was filed with the Commission on this day. For the sake of economy, as the subject matter is directly related to that of the petition dated November 25, 1996, we have asked that the Commission direct that it be taken as a simple amendment to the petition rather than an entirely new matter.

Thank you for your usual prompt attention to this matter.

Sincerely,

Jonathan M. Block
